# Maintenance Summary & Comments

Over the past month, we conducted routine maintenance and resolved several issues to ensure optimal performance and security for the website. Key updates include:

- 1.  **Plugin and Theme Updates:** All outdated plugins and themes were updated to their latest versions to ensure compatibility and patch known vulnerabilities.
- 2.  **Security Scan:** A malware scan was performed with no threats detected. Core file integrity was verified using checksums.
- 3.  **Performance Optimization:** Caching mechanisms were reviewed and adjusted, resulting in slightly improved response times across key pages.
- 4.  **Database Cleanup:** Unused transients and post revisions were cleared to reduce bloat and improve admin performance.
- 5.  **Backup Verification:** Backups are running as scheduled and were successfully restored in a test environment.
- 6.  **Resolved Issue:** A broken image on the gallery page was identified and corrected.

We continue to monitor uptime, SSL status, and domain expiration. The site is currently stable, secure, and performing well. Please let us know if you'd like any additional updates or new features implemented.
